

Cody Dickson 423-310-4521

4095 Hidden Valley Road  
Cleveland, TN 37312  
423.479.3811 & 423.476.3378  
Fax 423.559.9611  
Nashville 615.399.8377

## Manufacturers Represented in TN

**Bio – Microbics** - Advanced Septic tank treatment systems, Membrane wastewater treatment systems.

**Chemco Systems** - bulk chemical storage handling and feed systems for air and water pollution control.

**Denora** – Gas Chlorination and sulfonation systems, Chlorine Dioxide systems, UV systems, Instrumentation, monitors and controllers (pH, DO, Cl<sub>2</sub>, ClO<sub>2</sub>, leak), gas scrubbers.

**Drager** – Hazardous Gas and vapor monitoring and controlling systems for 400 chemicals

**EnviroTech** – Peracetic Acid products for Disinfection.

**Flomotion Systems** – Peristaltic Pumps, Chemical pumping systems and components, Ultrasonic flowmeter and level control, Magnetic flowmeters, recorders, specialty valving.

**Force Flow** – Chemical weighing (gas, liquid, and dry) and inventory systems.

**Halogen Valve Systems** – Emergency Gas (Cl<sub>2</sub> / SO<sub>2</sub>) shutdown systems.

**Sigura Constant Chlor** – Automatic constant concentration chlorine solution systems from calcium hypochlorite briquettes.

**Lutz – Jesco** – Diaphragm metering pumps and skids, Magnetic drive and transfer pumps, Air operated pumps, gas chlorination systems, Chlorine analyzers, Redox, pH; Dry chemical feed systems

**McCrometer** – Highly accurate flow monitoring solutions, including, magnetic, insertion magnetic, propeller, V-Cone, Wafer, and custom meters.

**Midwestern Fabricators** – FRP tanks, troughs, weirs, baffles, cover systems (dome, arch)

**Miller Leaman** – Membrane systems, Thompson Filter / Strainers, Turbo Disc filters.

**Miox Corp** – Onsite Generated Disinfection systems, including both Mixed Oxidant and Hypochlorite systems. Miox is now owned by DeNora listed above!

**Netafim** – Specializing in Drip tubing and components.

**Orengo** - Equipment and support for affordable, sustainable, decentralized wastewater treatment: septic tanks and septic filtering systems, advanced treatment systems, packaged textile media waste treatment systems, and pumping and custom control systems.

**ProMinent Fluid Co** – Metering pumps, chemical feed systems, skid injection systems, instrumentation and monitors, UV systems, ClO<sub>2</sub>, specialty valving..

**Pumpcon** – Prefabricated waste water pumping systems, wet-wells, waste water pumps, custom controls.

**Roth Plastic Tanks** -- Prefabricated plastics tanks designed for under ground septic use; can be used in conjunction with Orengo decentralized wastewater treatment.

**Supplying, Servicing, and Installation of the most versatile and robust water treatment equipment!**
